

3.6V 650mAh Ni-Cd Rechargeable Battery

This is a rechargeable Ni-Cd battery. It has a voltage of 3.6V and a capacity of 650mAh.

Product Overview

Reliable Power Solution

This 3.6V Ni-Cd rechargeable battery offers a dependable 650mAh capacity, making it an ideal power source for cordless phones and various small electronic devices. Designed for consistent performance, it provides a cost-effective solution for equipment requiring reliable, rechargeable power. Its compact design ensures compatibility with standard battery compartments.

Electrical Specifications

Voltage	3.6 V
Capacity	650 mAh
Chemistry	Ni-Cd (Nickel-Cadmium)

Product Features

Rechargeable	Yes
Common Applications	Cordless Phones, Small Electronics, Portable Devices
Country of Origin	China
