

3.6V Cordless Screwdriver with Variable Torque

This 3.6V cordless screwdriver delivers 200 RPM for efficient screwdriving. It features an EasyTurn mechanism, variable torque settings, and an LED light.

Overview

Versatile Cordless Screwdriver

This 3.6V cordless screwdriver is designed for efficiency and precision in various screwdriving and light drilling tasks. It features a compact, lightweight design with a 1.5 Ah battery, ensuring extended operation without memory effect. With variable torque settings and dual-function modes, this tool provides the flexibility needed for working with wood, metal, and plastic.

Technical Specifications

Voltage	3.6 V
Battery Capacity	1.5 Ah
Tool Holder Type	1/4" Hexagonal

Features

Operational Modes

- Screwdriving
- Drilling

Performance Metrics

200 RPM
Speed

Key Features

Variable Torque, Reverse Function, Spindle Lock, Integrated LED Light, Soft Grip Handle
