Overview

Advanced UV-C Sterilization Solution

This 36W ultraviolet disinfection lamp provides a powerful chemical-free solution for eliminating bacteria and pathogens by destroying their DNA. Designed for safety and convenience, it features an integrated motion sensor and a multi-stage timer controlled via remote. The shortwave UV-C technology ensures a healthy living environment by effectively disinfecting both air and surfaces.

Technical Specifications

Power Consumption

36 W

Rated Power

UV Wavelength	253.7 nm
UV Spectrum Range	200-280 nm (UV-C Shortwave)
Tube Material	Quartz Glass

Safety & Control

Timer Intervals

- 15 Minutes
- 30 Minutes
- 60 Minutes

Safety Features	Inbuilt Motion Sensor, Automatic Shut-off, Remote Control Operation
Motion Detection	Yes

Applications

Ideal Applications

Air Disinfection • Surface Sterilization • Indoor Environments
