

370W Monocrystalline M6 Solar Panel

This M6 370Wp solar panel utilizes monocrystalline cells for efficient energy conversion. It is designed to provide a reliable and sustainable power source.

Product Overview

High-Efficiency Monocrystalline Module

The QJM370-120H is a high-performance 370W monocrystalline solar panel designed for optimal energy conversion. Featuring M6 cell technology, this module achieves an impressive 19.92% efficiency rating, making it an excellent choice for residential or commercial solar installations. Its robust 40mm frame ensures durability and reliable power output under various environmental conditions.

Electrical Specifications

Rated Power

370 W

Rated Power

Electrical Parameters

Parameter	Value
Max Power Voltage (Vmp)	34.6 V
Max Power Current (Imp)	10.7 A
Open Circuit Voltage (Voc)	41.6 V
Short Circuit Current (Isc)	11.34 A

Technical Details

Module Efficiency	19.92 %
Dimensions	1765 x 1052 x 40 mm
Cell Technology	Monocrystalline, M6
