

# 3.7kW Oil-Free Scroll Air Compressor, 360 L/min

This oil-free scroll air compressor is designed for applications requiring clean and reliable compressed air. It features a displacement of 360 liters per minute and a power rating of 3.7 kW.

## Overview

### Clean, Reliable Air Compression

This oil-free scroll air compressor is engineered for professional applications requiring high-purity compressed air. With a robust 3.7 kW motor and a displacement capacity of 360 L/min, it delivers consistent performance while maintaining a manageable 70 dB noise profile. Its compact design and IP67 rating make it a durable and versatile solution for various industrial environments.

## Performance Metrics

### Key Performance Metrics

**3.7 kW**

Power

**360 L/min**

Air Delivery

**0.8 MPa**

Pressure

## Technical Specifications

Voltage	380 V AC
Noise Level	70 dB
Max Outlet Temperature	<92 °C

## Physical Attributes

IP Rating	IP67
Net Weight	42 kg
Dimensions (LxWxH)	580 x 420 x 430 mm
