

3.7V 1090mAh Rechargeable Lithium-Ion Battery Pack

This is a rechargeable lithium-ion battery pack designed for electronic devices. It operates at 3.7V with a capacity of 1090mAh.

Product Overview

High-Performance Lithium-Ion Power

This rechargeable lithium-ion battery pack is engineered for reliability in electronic devices requiring a stable 3.7V power source. With a capacity of 1090mAh, it offers consistent energy delivery for your applications. The unit is designed with essential safety protocols in mind, ensuring dependable performance when handled according to standard guidelines.

Technical Specifications

Rated Voltage	3.7 V
Capacity	1090 mAh
Chemistry	Lithium-Ion
Model Numbers	LI-100, LI-128, 30832AC

Compliance & Safety

Certifications

CE

Safety Guidelines

- Avoid short circuits
- Do not disassemble
- Do not dispose of in fire
- Store below 60°C
