3.8L Manual Airpot Dispenser

This airpot dispenses hot water with a manual pump, eliminating the need for electricity. It features an automatic dispense button for easy serving.

Overview

Professional Grade Manual Airpot

This 3.8L manual airpot dispenser is designed for efficient hot water service in professional environments. Featuring a durable stainless steel construction with a grey finish, it provides reliable thermal retention and easy operation. The integrated water level window allows staff to monitor capacity at a glance, ensuring timely refills during busy service periods.
