Overview

Intelligent 3D Nail Art System

This advanced 3D wireless nail art printer integrates PC computing technology to deliver high-precision, automated nail designs. Designed for efficiency, it features WIFI connectivity for wireless operation and can process up to 20 artificial nails simultaneously. With a vast library of over 1,000 designs and DIY photo editing capabilities, it offers a versatile solution for professional nail styling.

Physical Specifications

Dimensions (W x H x D)	420 x 520 x 340 mm
Packing Dimensions (W x H x D)	480 x 600 x 415 mm
Machine Weight	25 kg
Gross Weight	20 kg

Technical Performance

Power Consumption

48 W
Power

Power Supply	AC 100-240V / 50-60Hz
Memory Capacity	32 GB

Display and Interface

Display Specifications

Feature	Detail
Screen Size	13.3-inch
Aspect Ratio	16:9
Resolution	1600 x 900
Type	Capacitive Touch

Imaging and Software

Camera System

- 1 Megapixel external HD camera
- 300,000 pixel built-in HD camera

Design Library

1000 designs

Connectivity

WIFI, Wireless Internet

Certifications

Certifications

CE • FCC • FDA

Safety and Maintenance

Safety Mechanism

Contactless printing; nozzle maintains fixed distance from nail surface

Product Design Life

10 years
