Overview

Precision Cleaning Performance

This 3-liter digital ultrasonic cleaner is engineered for demanding cleaning tasks, utilizing high-performance transducer systems to generate cavitation bubbles for deep, effective cleaning. Featuring a robust stainless steel tank and intuitive touch-sensitive controls, it offers precise management of time and temperature for delicate or intricate items. Ideal for laboratory, dental, and industrial applications, this unit includes advanced safety features like dry-run protection and automatic shut-off to ensure reliable operation.

Technical Specifications

| | |
|----------------------|-------------------------|
| Tank Capacity | 3 L |
| Tank Dimensions | 238 x 138 x 100 mm |
| Ultrasonic Frequency | 40 KHz |
| Ultrasonic Power | 120 W |
| Heating Power | 180 W |
| Power Supply | AC 110V / 220V, 50/60Hz |

Operating Features

| | |
|-------------------|--|
| Timer Range | 0 - 60 Minutes |
| Temperature Range | 0 - 80 °C |
| Advanced Features | Degas Function, Touch-Sensitive Controls, LCD Display, Dry Run Proof, Safety Switch-off, Temperature Pre-selection |
