

3L Ultrasonic Cool Mist Humidifier

This humidifier adds moisture to the air, helping to alleviate dry skin and respiratory issues. It features a sleek design and user-friendly interface for easy operation.

Product Overview

Overview of the humidifier's key features, including 3L capacity, quiet operation, and double-hole mist technology.

Intelligent Ultrasonic Humidification

This 3L ultrasonic cool mist humidifier is designed to create a comfortable and healthy environment in bedrooms, offices, or vehicles. Featuring double-hole fog technology, it efficiently distributes moisture at a rate of 100mL/H while maintaining a quiet operation below 36dB. The compact, user-friendly design includes top-fill functionality for easy maintenance and a sleek aesthetic that blends into any modern decor.
