

3U Compact Fluorescent Lamp

This compact fluorescent lamp (CFL) features a 3U-shaped glass tube. It is designed as an energy-efficient alternative to incandescent bulbs, providing similar light output with significantly lower power consumption.

Overview

Energy-Efficient Lighting Solution

This 3U Compact Fluorescent Lamp (CFL) is designed as a high-performance, energy-efficient alternative to traditional incandescent bulbs. It features a distinctive 3U-shaped glass tube that provides consistent light output while significantly reducing power consumption. Equipped with a standard screw base, it ensures easy installation across a wide range of residential and commercial fixtures.

Technical Design

Tube Configuration

3U-Shaped Glass • Compact Fluorescent (CFL)

Model Identifier

ECO-02

Installation & Compatibility

Base Type

Standard Screw Base

Applications

Recommended Use

- General residential lighting
- Commercial office spaces
- Energy-saving retrofits
- Standard compatible fixtures
