

# 3W Osram LED Module for Lighting Applications

High-performance 3W Osram LED module is designed for various lighting applications. It features robust construction with heat dissipation fins for optimal thermal management.

## Product Overview

### High-Performance 3W LED Module

This 3W LED module is engineered for versatile lighting applications, offering a balance of efficiency and reliability. Designed with robust heat dissipation fins, it ensures optimal thermal management for extended operation. It is an ideal solution for signage, backlighting, and accent lighting needs in both indoor and outdoor environments.

## Technical Specifications

### Power Rating

**3 W**

Power Consumption

### Applications

Signage, Backlighting, Accent Lighting, Indoor Use, Outdoor Use

## Design & Construction

### Key Features

- Integrated heat dissipation fins
- Robust construction
- Long lifespan design

### Thermal Management

Yes
