

4-14mm Tool Cutting and Sharpening Machine

This machine is specialized for cutting tools, offering accurate and rapid cutting. It features a Taiwan diamond grinding wheel to complete the entire procedure with no special skill required.

ADDITIONAL IMAGES

Overview

Specialized machine designed for efficient tool cutting and sharpening.

Precision Tool Cutting & Sharpening

This specialized cutting and sharpening machine is engineered for accuracy and rapid tool maintenance. Designed for ease of use, it requires no advanced operator skills to achieve professional results. Equipped with a high-quality diamond grinding wheel, the unit handles the entire procedure efficiently, ensuring long service life and precise angles for various cutting tools.

Technical Specifications

Robust construction with precise controls for accurate maintenance tasks.

Performance Metrics

4400 rpm

Operating Speed

160 W

Motor Power

13 kg

Machine Weight

Dimensions & Power

Attribute	Value
Dimensions	35 x 24 x 24 cm
Power Supply	AC 220V
Grinding Range	4-14 mm
Point Angle	5°-30°

Equipment & Capabilities

Compact benchtop design suitable for various workshop environments.

Included Components

- CBN Grinding Wheel (for HSS)
- 11 Precision Collets (4mm to 14mm)
- Collet Chuck

Key Features

Easy Operation • High Precision • Rapid Sharpening • Compact Design • No Skill Required
