

# 4-Foot Wooden Top Workbench with Power Strip

This 4-foot workbench features a durable wooden top, providing a sturdy and reliable work surface. It is equipped with a power strip and adjustable legs for stability.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Workstation

This 4-foot workbench is engineered for heavy-duty applications, featuring a robust rubber wood tabletop that offers both durability and a reliable work surface. Designed with stability in mind, the unit includes heavy-duty steel legs and adjustable leveling feet to accommodate uneven flooring. With an integrated power strip, this workbench provides immediate access to electrical outlets, making it an essential addition to any workshop, garage, or industrial hobby space.
