Overview

High-Performance Abrasive Cutting

This 4-inch abrasive cutting wheel is engineered for precision and efficiency in metalworking applications. Designed for use with angle grinders, it features a reinforced construction that balances sharpness with durability, ensuring clean, fast cuts on stainless steel, standard steel, and precious metals. Built to meet international safety standards, it is an ideal choice for professional fabrication and repair tasks.

Technical Specifications

Dimensions (Metric)	107 x 1 x 16 mm
Dimensions (Imperial)	4" x 3/64" x 5/8"
Maximum Speed (RPM)	14200
Max Peripheral Speed	80 m/s
Specification Code	T41-WA60R5BF
Compliance Standards	EN12413

Material & Usage

Compatible Materials

- Stainless Steel
- Steel
- Precious Metals

Abrasive Material: White Aluminum Oxide

Performance Metrics

Performance Highlights

Safety Reinforced • High Sharpness • Durable Construction
