Overview

Professional Desktop Labeling Solution

This 4-inch desktop thermal transfer barcode printer is engineered for high-resolution printing, ensuring clear and accurate text and barcode reproduction. Designed for versatility, it supports both thermal transfer and direct thermal printing methods, making it ideal for retail, healthcare, logistics, and manufacturing environments. Its compact, robust construction saves valuable workspace while maintaining reliable, long-term performance.

Technical Specifications

Print Resolution

203 dpi
Resolution

Printing Methods

Thermal Transfer, Direct Thermal

Firmware Version

1.2.8

Connectivity & Compatibility

Connectivity

- Ethernet
- WiFi

Network Capabilities

Interface	Example IP Address
Ethernet	192.168.123.100
WiFi	192.168.123.101

Emulation Modes

AUTO

Design & Application

Recommended Sectors

Retail • Healthcare • Logistics • Manufacturing

Design Features

- Compact footprint
- Robust construction
- Easy media loading
- User-friendly operation
