Product Overview

High-Performance 4-Inch Diesel Water Pump

This 4-inch diesel engine water pump set is a robust and reliable solution engineered for high-volume water transfer applications. Designed for durability and efficiency, it provides consistent performance in demanding environments such as construction sites, agricultural irrigation, and emergency water removal. The unit features a sturdy frame for stability and portability, ensuring dependable operation for various water management needs.

Technical Specifications

Pump Inlet/Outlet Diameter	4 inch
Engine Type	Diesel

Key Features

Design Highlights

- Robust diesel engine for consistent performance
- Sturdy frame for enhanced stability
- Efficient design for minimized fuel consumption
- Engineered for easy maintenance and longevity

Ideal Applications	Irrigation, Construction, Dewatering, Emergency Water Removal
--------------------	---

Safety Information

Safety Precautions

- Do not use in enclosed spaces
- Stop engine before refueling
- No smoking while refueling
- Fuel is flammable; handle with care
- Read instruction manual before operation
