

4-Inch Pneumatic Wet Sander Polisher

This pneumatic wet sander/polisher is designed for sanding and polishing tasks. Its compact and ergonomic design ensures comfortable handling during use with various abrasive pads and polishing compounds.

Product Overview

Professional Pneumatic Wet Sander

The 4-inch pneumatic wet sander/polisher is a robust tool engineered for high-performance sanding and polishing tasks. Designed with a compact and ergonomic form factor, it ensures comfortable handling during extended operation. This versatile tool is ideal for automotive, stone, and metalworking applications, requiring a standard compressed air source for optimal performance.

Technical Specifications

Item Number	LK-31
Free Speed	4500 RPM
Sanding Pad Size	5 inch (125 mm)
Net Weight	2 kg

Air Requirements

Average Air Consumption

6 CFM
CFM

171 L/MIN
L/MIN

Air Inlet	1/4 inch (PT)
Air Hose (ID)	3/8 inch
Working Pressure	90 PSI

Applications

Suitable Industries	Automotive, Stone Processing, Metalworking
