

4-Inch Submersible Deep Well Water Pump

The 4-inch submersible deep well water pump is engineered for efficient water extraction from deep wells. Constructed from durable stainless steel, it ensures longevity and resistance to corrosion.

Overview

High-Performance Deep Well Extraction

This 4-inch submersible deep well water pump is engineered for efficient and reliable water extraction in demanding environments. Constructed from durable stainless steel, it offers excellent corrosion resistance and longevity for both residential and commercial applications. Its robust design ensures consistent, high-volume water output, making it an ideal solution for irrigation, domestic supply, and industrial needs.

Technical Specifications

Pump Diameter	4 inch
Material	Stainless Steel

Certifications

Certifications & Standards	CE, SGS, ISO 9001, SASO, SON, RoHS
----------------------------	------------------------------------

Applications

Suitable Applications

- Irrigation systems
- Domestic water supply
- Industrial water extraction
