

4-Inch WCB Ball Valve

This 4-inch ball valve is made from WCB (Weldable Cast Steel). It is rated for 150lb pressure and suitable for controlling fluid flow in industrial processes.

Product Overview

Industrial 4-Inch Ball Valve

This 4-inch ball valve is engineered for demanding industrial fluid control applications. Constructed from high-quality Weldable Cast Steel (WCB), it offers robust durability in high-pressure and high-temperature environments. The flanged connection design ensures a secure, leak-proof integration into piping systems.
