Product Overview

High-Reliability AC Magnetic Contactor

This 4-pole electronic AC magnetic contactor is engineered specifically for HVAC and refrigeration applications. Utilizing a robust electromagnetic coil mechanism, it provides reliable switching for multiple electrical circuits simultaneously. Designed as a definite-purpose component, it ensures consistent performance in demanding air conditioning control systems.

Technical Specifications

Pole Configuration	4-Pole
Series Design	CJX2
Operation Type	Magnetic / Electronic
Auxiliary Contacts	13NO, 14NO, 21NC, 22NC

Service & Logistics

Payment Terms

- 30% deposit required
- Balance payment against B/L copy

Customization

OEM Available • ODM Available • Logo Printing

Delivery Time	20 days
Quality Control	Yes
Sample Availability	Free samples available; shipping costs borne by the customer.
