

4-Slice Contact Grill with Adjustable Temperature

This contact grill can cook up to four slices of food at once. It has adjustable temperature controls and non-stick cooking plates.

Overview

Professional 4-Slice Contact Grill

This versatile 4-slice contact grill is designed for high-performance cooking in professional or home kitchens. Featuring a 180-degree opening capability and independent temperature controls for both the top and bottom plates, it offers precise heat management for a variety of food types. The unit is built for convenience with detachable, dishwasher-safe non-stick plates and an integrated grease drip tray to ensure easy cleaning and healthier cooking results.
