Overview

High-Performance 4-Stroke Engine

This 170cc 4-stroke gasoline engine is engineered specifically for lawn mowers and outdoor power equipment. Its compact and lightweight design optimizes shipping logistics while maintaining robust performance. Featuring an overhead valve (OHV) configuration, this engine ensures efficient fuel consumption and reliable operation for professional and residential use.

Technical Specifications

Power Rating

4 HP

Rated Power

Engine Displacement

170 cc

Engine Type

4-Stroke, Single-Cylinder, OHV

Features & Design

Compatibility & Maintenance

- Designed specifically for lawn mowers
- Leak-proof storage (vertical and horizontal)
- Optional lithium start function
- High parts interchangeability
