

# 4-Stroke OHV Gasoline Engine

This 4-stroke OHV gasoline engine is designed for various applications. It features durable construction and efficient combustion for reliable performance.

## ADDITIONAL IMAGES

## Product Overview

### Compact Power Solution

This 4-Stroke OHV gasoline engine is engineered for versatility and reliability in small machinery applications. With a displacement of 87cc and a maximum output of 2.6 HP, it provides consistent power for equipment like generators and water pumps. Its efficient design and compact dimensions make it an ideal choice for portable power needs.

## Performance Specifications

### Key Performance Metrics

<b>87 cc</b> Displacement	<b>2.6 HP</b> Max Output	<b>3600 rpm</b> Rated Speed
------------------------------	-----------------------------	--------------------------------

Engine Type	4-Stroke OHV Gasoline Engine
-------------	------------------------------

## Technical Details

Fuel Tank Capacity	1.6 L
Oil Capacity	0.35 L
Ignition System	Transistorized ignition

## Operation

Starting System	Recoil starting
Fuel Consumption	290 g/kw.h

## Physical Specifications

Dry Weight	11 kg
------------	-------
