

## 40-45 HP Wheel Tractor

This wheel tractor is designed for agricultural applications, offering a horsepower rating between 40 and 45. It is equipped with heavy-duty tires and a hydraulic system to support various implements.

### ADDITIONAL IMAGES

### Overview

#### Versatile Agricultural Power

This 40-45 HP wheel tractor is engineered for high performance in diverse agricultural environments. Designed with a robust 4x4 drivetrain and dual-action clutch, it ensures reliable operation for demanding tasks like plowing, tilling, and planting. The machine features advanced shuttle shift transmission and double PTO speeds, providing the operational flexibility modern farmers require.
