

400 kVA AC Alternator

This 400 kVA AC alternator is designed for power generation applications. It provides stable voltage and frequency, ensuring compatibility with sensitive electronic equipment.

Product Overview

High-Performance 400 kVA Alternator

This robust 400 kVA AC alternator is engineered for reliable power generation in both standby and prime power applications. Featuring a brushless, self-excited design, it ensures stable voltage and frequency output, making it suitable for sensitive industrial and commercial equipment. The unit is built for durability and efficient cooling, providing consistent performance across a wide range of operating conditions.

Technical Specifications

Rated Output

400 kVA

Apparent Power

320 kW

Active Power

Voltage Range

110-480V

Operating Speed

1500 RPM

Design & Construction

Excitation Type

Brushless • Self-excited

Insulation Class

H

Mounting Standard

SAE 1
