

4000lb Capacity Utility Winch with Remote Control

This utility winch is designed for heavy-duty lifting and pulling applications. It features a robust motor, durable steel cable, and a remote control for safe and convenient operation.

Product Overview

Heavy-Duty Utility Winch Solution

This 4000lb capacity utility winch is engineered for demanding lifting and pulling applications. It features robust differential planetary gearing and an automatic braking system to ensure reliable performance under load. With an integrated solenoid control box and remote operation, this winch provides both power and convenience for professional utility tasks.
