

400mAh Lithium-Ion Battery

This is a compact lithium-ion battery with a 400mAh capacity. It is designed for applications requiring a small, lightweight power source.

Overview

Compact Power Solution

This 400mAh Lithium-Ion battery is engineered for applications requiring a reliable, lightweight, and compact power source. It features standardized dimensions and is built to meet established safety and quality benchmarks. Ideal for small-scale electronics, this unit provides consistent performance in a portable form factor.

Technical Specifications

Nominal Capacity

400 mAh
Capacity

Chemistry

Lithium-Ion

Certification ID

UL/043040S
