

400mm Metal Cut-Off Saw

This 400mm cut-off saw is designed for precise metal cutting. It features a robust motor, adjustable workpiece clamp, and durable construction.

Product Overview

Industrial Metal Cut-Off Solution

This 400mm metal cut-off saw is engineered for robust performance in industrial and workshop environments. Constructed with high-quality cast iron for both the body and base, it ensures long-term durability and stability during operation. The design prioritizes user safety and efficiency, featuring a specialized switch handle, a protective guard, and integrated wheels for easy mobility.

Construction & Design

Material Composition	Cast Iron Body, Cast Iron Base
Mobility	Yes

Technical Specifications

Performance Metrics

400 mm

Cutting Capacity

Blade Size	400 mm
