Overview

Industrial-Grade Area Illumination

This 400W AC-powered LED work light is engineered for demanding industrial environments such as construction sites, warehouses, and workshops. It delivers powerful 360-degree omnidirectional lighting, effectively simulating daylight to improve visibility and safety. Designed for mobility and durability, the unit features a rugged aluminum housing, protective safety grid, and integrated wheels for easy positioning.

Performance Metrics

Power Output

400 W

Power

40000 Lm

Luminous Flux

Color Temperature

5500-6000K

Technical Specifications

IP Grade

IP44

Input Voltage

100-277V AC

Housing Material

Aluminum

Product Dimensions

326 x 274 x 1185 mm

Features & Safety

Key Features

- 360° omnidirectional light output
- Integrated output socket for daisy-chaining devices
- Overload protection with auto-shutoff
- Top-mounted protective safety grid
- Heavy-duty wheels for enhanced mobility

Certifications

CE, RoHS

Warranty

Warranty Coverage

5 years (LED chip and Meanwell driver)
