Product Overview

High-Performance Industrial Illumination

This 400W LED flood light is engineered for exceptional brightness and durability in demanding environments. Featuring robust construction and high-temperature resistant components, it provides reliable, long-lasting performance. With an IP66 rating for dust and water resistance, it is an ideal solution for large-scale outdoor applications such as construction sites, parking lots, and sports facilities.

Technical Specifications

Power Consumption

400 W

Rated Power

IP Rating

IP66

Key Features

High-Temperature Resistant, Waterproof, Durable Construction, Energy Efficient

Applications

Recommended Use Cases

- Construction sites
- Parking lots
- Sports fields and facilities
- Building exteriors
- Security lighting
- Landscape illumination
