

405W Monocrystalline Solar Panel

This 405W monocrystalline solar panel is engineered for optimal energy conversion. It features robust construction and advanced cell technology for enhanced performance and durability.

Product Overview

High-Efficiency Solar Solution

This 405W monocrystalline solar panel is engineered for optimal energy conversion, providing a reliable and sustainable power source. Featuring advanced mono-PERC cell technology, the panel delivers high power output and improved shading tolerance. Its robust construction ensures long-term durability and performance across residential, commercial, and utility-scale installations.

Technical Specifications

Rated Power Output

405 W

Power Rating

Cell Type

Monocrystalline PERC

Key Features

Performance Advantages

- High power output density
- Improved shading tolerance
- Durable construction for harsh environments
- Reduced maintenance requirements

Suitable Applications

Residential, Commercial, Utility-scale, Grid-tied, Off-grid
