

40A 2-Pole Contactor

This 2-pole contactor is rated for 40A. It features silver cadmium oxide contacts.

Product Overview

Professional HVAC Contactor

This 2-pole contactor is specifically engineered for reliable performance in air conditioning and refrigeration systems. It provides robust electrical switching with a 40A rating and supports a wide voltage range from 24V to 480V. Built to withstand demanding environments, this component offers exceptional mechanical and electrical longevity to ensure stable operation in industrial and commercial HVAC applications.

Technical Specifications

Performance Metrics

40 A Rated Current	2 Number of Poles	24 VAC Coil Voltage
------------------------------	-----------------------------	-------------------------------

Operational Lifespan

Load Type	Cycles
Resistance Load	250000
Horsepower Load	100000
Mechanical Life	1000000

Voltage Range	24V-480V
