Overview

Professional HVAC Contactor

This 3-pole AC contactor is engineered for reliable performance in demanding HVAC and industrial environments. Designed for 3-phase power systems, it provides efficient switching for motors, heaters, and other electrical loads. With robust construction and CE certification, it ensures safety and longevity in commercial and industrial applications.

Technical Specifications

Rated Current

40 A

Rated Current

Pole Configuration	3-Pole
Coil Voltage	24V AC
Frequency	50/60 Hz

Certifications & Compliance

Certifications	CE
