

40M Insulated Cable Reel with Four Outlets

This 40-meter cable reel has IP44 protection and a 16A current rating, with a 230V voltage rating. It features four outlets and a 1000W/3000W cable power rating.

Overview

Professional Grade Insulated Cable Reel

This 40-meter insulated cable reel is designed for demanding environments, featuring four protected outlets and a robust H07RN-F 3G2.5mm² cable. With an IP44 security rating, it provides reliable power distribution even in damp conditions. The reel is engineered to handle up to 3000W when fully uncoiled, making it an essential tool for high-capacity professional applications.
