

40m Mini Laser Distance Meter

This mini laser distance meter accurately measures distances up to 40 meters. It includes multiple measurement functions such as length, area, and volume, along with unit conversion.

Overview

Compact Precision Measurement

This mini laser distance meter is designed for quick and accurate measurements in various professional applications. With a range of up to 40 meters, it offers essential functionality including length, area, and volume calculations. Its compact form factor ensures portability, while the intuitive interface provides easy unit conversion and memory storage for efficient workflow management.

Technical Specifications

Maximum Measuring Range	40 m
Power Source	2 x AAA batteries (included)

Features

Measurement Modes

- Distance (Length)
- Area
- Volume

Device Features

Memory Storage • Unit Conversion • Compact Design

Supported Units	Meters, Feet
