

4.0mm 3-Core Flat Electrical Cable

This 4.0mm flat electrical cable features copper conductors with PVC insulation. It is suitable for various indoor wiring applications and consists of three color-coded cores enclosed in a grey PVC sheath.

Product Overview

General Purpose Electrical Cable

This 4.0mm 3-core flat electrical cable is engineered for reliable power distribution and general indoor wiring applications. Featuring high-quality copper conductors with durable PVC insulation, it ensures consistent electrical performance. The cable is designed with a standard grey PVC sheath and color-coded cores for efficient and safe installation.

Technical Specifications

Conductor Size	4 mm
Number of Cores	3
Core Colors	Red, Yellow, Blue

Construction

Insulation Material	PVC
Sheath Color	Grey
Cable Shape	Flat

Application

Usage Environment

Indoor • General Purpose • Power Distribution
