Product Overview

Professional 40V Battery Charger

This high-performance 40V battery charger is engineered for reliable and efficient power management. Designed with safety and durability in mind, it features an integrated LED status indicator system that provides real-time feedback on the charging process. Compatible with standard European power infrastructure, this unit is an essential tool for maintaining battery health and operational readiness.

Technical Specifications

Plug Type

EU Plug

Input Voltage	100-240V AC
Frequency	50/60Hz
Output Voltage	40 V
Output Current	0.5 A

Construction & Design

Housing Material	ABS Plastic
