

40V Lithium-Ion Rechargeable Battery for Cordless Tools

This rechargeable battery utilizes lithium-ion technology. It is designed to be compatible with multiple cordless tools, reducing the need for numerous chargers and minimizing storage requirements.

Product Overview

Versatile 40V Power System

This high-capacity 40V lithium-ion rechargeable battery is designed to provide consistent, reliable power across a wide range of cordless garden tools. By utilizing a single battery platform, users can significantly reduce clutter and storage space requirements by eliminating the need for multiple chargers. The universal compatibility ensures that you only need to invest in one battery system to maintain your entire tool collection efficiently.

Technical Specifications

Battery Voltage	40 V
Power Source	Lithium-Ion
Key Features	Universal Compatibility, Rechargeable, Lithium-Ion Technology

Logistics and Packaging

Container Capacity

Container Type	Quantity (pcs)
20'GP	282
40'GP	567
40'HC	672
