

40W LED Grille Light

This LED grille light is designed for high-performance illumination in various settings. Consuming only 40W, it provides a bright and consistent light output while reducing energy costs.

Overview

High-Performance Illumination

This 40W LED Grille Light is a high-performance lighting solution designed for both commercial and residential applications. Featuring a slim, durable profile, it provides uniform and energy-efficient illumination suitable for offices, schools, hospitals, and homes. The design ensures easy installation and maintenance, making it a seamless fit for various ceiling grid or surface mount requirements.

Technical Specifications

Power Consumption	40 W
Lighting Type	LED Grille Light

Features

Key Benefits

- Energy-efficient illumination
- Slim profile design
- Uniform light distribution
- Easy installation and maintenance

Ideal Applications	Office, School, Hospital, Residential
