Overview

High-Performance Gasoline Chain Saw

This 41cc gasoline-powered chain saw is engineered for reliable performance in both professional and home-use environments. Featuring a robust engine, it is designed to handle demanding tasks such as felling trees, pruning branches, and cutting firewood with efficiency. The unit prioritizes user experience with an ergonomic design and an integrated anti-vibration system to minimize fatigue during extended operation.

Technical Specifications

Engine Displacement	41 cc
Power Source	Gasoline

Safety & Ergonomics

Usability Benefits

- Ergonomic handle design
- Reduced operator fatigue
- Durable cutting bar and chain
- Suitable for professional and home use

Safety Features	Chain Brake, Throttle Lock, Anti-vibration System
