Overview

Versatile 42L Portable Cooling Solution

This 42L portable compressor refrigerator is engineered for professional-grade cooling on the road, featuring a dual-zone design with dedicated freezer and refrigerator compartments. Built with a durable steel finish and high-efficiency aluminum interior, it offers rapid cooling down to -20°C while maintaining energy efficiency through dedicated ECO and Max modes. Its intelligent battery protection and dual AC/DC compatibility make it an essential companion for camping, long-haul travel, and outdoor professional use.

Performance

Cooling Performance

-20°C

Lowest Temp

42 L

Net Capacity

40 mm
