

# 42mm PVC Pipe Cutter

This PVC pipe cutter is designed for making clean, perpendicular cuts on PVC pipes. It is suitable for pipes up to 42mm in diameter, making it ideal for plumbing and irrigation.

## Product Overview

### Professional PVC Pipe Cutting Solution

This 42mm PVC pipe cutter is designed for precision and efficiency in professional plumbing and irrigation tasks. Featuring a high-quality stainless steel blade and a smooth ratcheting mechanism, it allows for clean, burr-free perpendicular cuts with one-handed operation. Its ergonomic design ensures user comfort while providing the leverage necessary for pipes up to 1-5/8 inches in diameter.

## Technical Specifications

### Maximum Cutting Capacity

**42 mm**

Max Diameter (Metric)

**1.625 in**

Max Diameter (Imperial)

Blade Material

Stainless Steel

Cutting Mechanism

Ratchet action

Operation

One-handed

## Features

### Key Advantages

- Quick and clean cutting performance
- Ergonomic handle design for reduced fatigue
- Burr-free edge finish
- Durable stainless steel cutting blade

Common Applications

Plumbing, Irrigation, PVC Pipe Installation
