Overview

Professional Earth Drilling Solution

This 43cc earth auger powerhead is engineered for high-torque performance in demanding soil conditions. Designed with user comfort in mind, it features anti-vibration foam-grip handles and a specialized flex coil shock absorber to minimize kickback and physical strain. This comprehensive package includes an 8-inch steel drill bit, making it an ideal tool for fence post installation, tree planting, and soil sampling projects.

Technical Specifications

Engine Displacement	43 cc
Engine Type	2-cycle
Included Drill Bit Size	8 inch
Starter System	Manual Recoil

Features

Key Performance Metrics

43 cc Engine Capacity	8 inch Bit Diameter
---------------------------------	-------------------------------

Ergonomic Features	Anti-vibration handles, Foam-grip handles, Flex coil shock absorber
--------------------	---

Compatibility & Use

Intended Applications

- Fence post installation
- Tree planting
- Soil sampling

Construction

Heavy-duty construction • Durable steel bit
