

44-Inch Large Format Inkjet Printer

This 44-inch large format inkjet printer is designed for professional printing applications. It features advanced print head technology for high-resolution output, precise color reproduction, and consistent image quality.

Overview

Professional Large Format Printing

This 44-inch large format printer is engineered for high-resolution output and precise color reproduction in professional printing environments. Designed for reliability and durability, it supports a wide range of media types and sizes, making it an ideal solution for posters, signage, fine art, and photographic prints. The device integrates user-friendly controls and efficient software to ensure optimized workflow management and consistent image quality.

Technical Specifications

Maximum Print Width	44 inch
Supported Applications	Posters, Signage, Fine Art, Photographic Prints

Performance Features

Key Performance Benefits

- Advanced print head technology
- High-resolution output
- Precise color reproduction
- Consistent image quality
- High operational stability
