

445W Monocrystalline Solar Panel

This high-efficiency monocrystalline solar panel provides a power output of up to 445W. It features a 12-year material and craft quality assurance and a 25-year power output guarantee, ensuring 80% output.

Overview

High-Efficiency 445W Monocrystalline Module

This high-efficiency monocrystalline solar module is designed for reliable energy generation with a maximum power output of 445W. Engineered for durability, it features robust mechanical load capabilities up to 8000 Pa and resistance to harsh environmental factors, including salt mist and ammonia. With a 12-year material and craft quality assurance and a 25-year power output guarantee, this module is built for long-term performance and stability.

Performance Metrics

Rated Power Output

445 W

Power Output

Power Output Guarantee

25 years (80% output)

Durability & Standards

Certifications

ISO 9001 • ISO 14001 • OHSAS 18001 • TUV • JET • CE • J-PEC

Mechanical Load Capability

8000 Pa

Environmental Resistance

Salt Mist Corrosion Resistant, Ammonia Resistant, PID Free

Warranty

Material & Craft Warranty

12 Years
