

45-60 HP Agricultural Tractor

This tractor is designed for agricultural applications ranging from plowing to planting. It features a robust engine, efficient transmission and comfortable operator station.

Overview

Versatile Agricultural Tractor

This series of tractors offers reliable performance with horsepower ranging from 45 to 60 HP. Engineered for high-demand agricultural tasks, these machines are built to excel in plowing, tilling, and planting applications. Featuring a robust engine and efficient transmission, they provide consistent power while maintaining a focus on operator comfort and ease of use.
