

45-Degree Elbow Fitting for Plastic Machinery

This 45-degree elbow fitting is designed for plastic machinery applications. It is available in sizes ranging from 32mm to 200mm nominal diameter and constructed of durable plastic material.

Product Overview

45-Degree Elbow Fitting

This 45-degree elbow fitting is engineered specifically for plastic machinery applications, providing a reliable solution for connecting pipes within plastic processing systems. Constructed from durable plastic, it is designed to withstand the demands of industrial environments. The fitting is available in a wide range of nominal diameters, from 32mm to 200mm, offering flexibility for various system design requirements.

Technical Specifications

Material	Durable Plastic
Angle	45 degree
Available Nominal Diameters	32mm, 40mm, 50mm, 75mm, 110mm, 160mm, 200mm

Dimensional Data

Dimensions by Nominal Diameter

Code	Nominal Diameter (mm)	L (mm)	A (mm)
DE32/A	32	22	8
DE40/A	40	25	10.5
DE50/A	50	25.5	12
DE75/A	75	41	19
DE110/A	110	50	26
DE160/A	160	60	40
DE200/A	200	70	46
