Product Overview

High-Performance Abrasive Cut-Off Wheel

This 4.5-inch abrasive cut-off wheel is engineered for precision cutting in demanding industrial environments. Constructed with high-quality abrasive grains bonded with durable resin, it delivers fast, efficient performance and an extended service life. Designed specifically for use with angle grinders, it is an ideal solution for metal fabrication, construction, and cutting stainless steel or aluminum.

Technical Specifications

Dimensions (Metric)

115 mm
Diameter

1.2 mm
Thickness

22.3 mm
Arbor Hole

Dimensions (Imperial)

4.5" x 3/64" x 7/8"

Performance & Safety

Maximum Operating Speed	13300 RPM
Max Peripheral Speed	80 m/s
Compliance	EN12413

Usage & Compatibility

Compatible Materials

- Metal
- Stainless Steel
- Aluminum

Compatible Tools

Angle Grinders
