

4.5 Inch Stainless Steel Grinding Wheel

This 4.5 inch grinding wheel is designed for stainless steel applications, with dimensions of 115*6.0*16mm. It is also suitable for use on other metals.

Product Overview

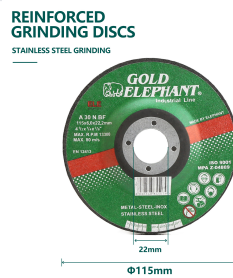

- Special disc for stainless steel and stainless steel casting.
- Soft disc, made of precious corundum, aggressive.
- Free from iron and sulphur.

Engineered with precious corundum for aggressive, contamination-free grinding on stainless steel.

High-Performance Grinding Solution

This 4.5-inch grinding wheel is engineered specifically for stainless steel and INOX applications. Featuring a depressed center (T27) design, it utilizes a soft composition with precious corundum to ensure aggressive material removal and superior control. The wheel is formulated to be free from iron and sulphur, preventing contamination during the grinding process and ensuring high-quality finishes.

Technical Specifications
